

**BUILDING
COMMUNITY
CITY 2017**

Annual Conference, September 11th,
David Intercontinental Hotel, Tel-Aviv
Opening Evening, September 10th,
Porter School of Environmental Studies

S.U.i.T.S
Smarter Urban IT & Strategies

**URBAN INNOVATION & SMART CITIES AS A CATALYST
FOR SUSTAINABILITY IN SECONDARY & DEVELOPING CITIES**

**SEPTEMBER 10TH, 2017, 1500- 17:30,
PORTER SCHOOL, TEL AVIV UNI. TEL AVIV**

***THIS EVENT WILL BE HELD IN ENGLISH**

This event is focused on understanding the potential of technology and data, to tackle urban challenges, and promote sustainability and resilience, based on the unique factors and needs of secondary cities* and developing urban areas. The event will raise questions, ideas & case-studies forged on Israel's built environment, while exploring Israel's comparative advantage in urban technology, innovation and policy and the potential to become a test-bed and nurturing ground for smart & sustainable technologies for other global secondary cities and cities of the developing world.

The event is held in collaboration with **LVRLACC**, the organization of cities and counties around Lake Victoria- with participation of mayors, chairman and senior officials from Kenya, Uganda and Tanzania

* Secondary cities are defined as cities with population of under 500,000, 10%-50% of the largest city or with a substantially smaller financial market).
